Tool description					
basic form	circular saw blade 	profile saw blade 	side milling cutter 	profile milling cutter 	
– without axial teeth –			– with axial teeth –		
basic dimensions	Outer-Ø: widths of cut: arbor hole:		no. of teeth: profile: no yes, s. sketch		
base material	solid carbide others: HSS HSS-Co5 HSS-Co8PM		solid carbide others: HSS-Co5 HSS-Co8PM		
Radial teeth					
tooth form	angle tooth A 		rounded tooth B 		
chip space path	straight 	staggered 	spiraled (left) 	spiraled (right) 	
secondary geometries	both-sided chamfers 	both-sided radius 	M-toothing 		
	chip breaker 	alternating chamfer 	triple chip tooth C 		
axial teeth			yes	no	
Side execution					
dish	flat total dish in mm Position: centered right left				
finish	standard		polished		
Interface					
hub	no	yes, please fill in:		hub left hub-Ø (le): overhang (le):	hub right hub-Ø (ri): overhang (ri):
rotation lock	keyway:	no	yes	drive pin holes:	no yes qty: hole-Ø: pitch-Ø: (spec. in mm)
